

GO Real-Time GL tracker

*Temperature, humidity,
movement, light, security
and location*

Keeping global cold chains visible

The GO Real-Time GL tracker helps ensure the integrity of your perishable shipments with global visibility, accuracy and reliability. With a 20-day optimized battery life and airline-safe, non-lithium batteries, the tracker supports secure, uninterrupted global operations. It provides real-time data on conditions like temperature, location, humidity, and more to enable precise monitoring and compliance adherence. This helps empower seamless delivery with reduced spoilage and on-time performance, even across complex, international supply chains.

Robust functionality makes it ideal for monitoring temperature sensitive goods to help safeguard product quality and compliance. By combining global connectivity with precision-driven insights, the tracker delivers a comprehensive solution to help logistics stakeholders enhance efficiency, reduce risks, and ensure the safe and timely delivery of critical perishable goods.

Analytics to support supply chain excellence

The Oversight360 cloud platform and mobile app provides comprehensive, real-time visibility into your shipments for enhanced logistics management. Track shipment status from device activation to delivery via a web and mobile-friendly interface. Access detailed maps, charts and timelines to monitor location, temperature, security, and other critical metrics. Generate in-depth shipment summary reports with essential details, including device serial numbers, trip specifics, mean kinetic temperature, and deviations from defined ranges. With multilingual support, Oversight360 ensures seamless global monitoring for shipments across any origin or destination..

-  Airline safe battery
-  Real-time alerts
-  Temperature and humidity
-  True global connectivity
-  Improved location accuracy
-  Automated/scheduled cloud reporting via Oversight360.
-  Authenticated user access
-  Recycle with GO GreenSense

COPELAND

Technical specifications

Accelerometer	Yes
Battery	Alkaline (TAC-THW01) UN38.3 compliant
Cellular	Global CAT-1 Bis Technology
Certifications*	FCC, IC, PTCRB, CE, UK/CA, ROHS, REACH
Default reporting and recording intervals	10-minute measurements reported at 20-minute intervals
Device location accuracy†	Cellular: 0.3 miles (500 meters) Cellular + Wi-Fi: 50 - 150 feet (15 - 50 meters)
Humidity accuracy	±5% RH
In-use life‡	Up to 20 days
Light sensor sensitivity	+/-0.5 Lux, Minimum detectable, 1 Lux
NIST calibrated sensor	Yes
Oversight360 dashboard	portal.oversight360.copeland.com
Recycle options	GO GreenSense program
Shelf life	Shipped with a minimum in-use and shelf life of approx. 6-months. Please check the "Activate by [date]" on the product box and follow a first-in first-out process.
Size	80mm (3.15") x 66mm (2.6") x 35mm (1.38")
Temperature accuracy	±0.5°C (0.9°F) typical between -10°C to 55°C (4°F to 140°F)
Temperature range	-10°C to 55°C (14°F - 131°F) 0-99% RH (non-condensing)

* For additional certification, scan the QR code on the device or

shop/tac-thw01.

† Device location accuracy is the typical observed accuracy of our devices. Several factors may impact the device's geo location accuracy, such as number of visible cellular towers and viable Wi-Fi Access Points, updated geo location services, proper device placement inside shipments, and other environmental factors.

‡ Device battery life depends on configured recording and reporting intervals.
